SUMMARY

- Computer Science & Engineering student with a strong foundation in full-stack web development, database systems, and software engineering.
- Experienced in developing web applications and database-driven systems using PHP, MySQL, JavaScript, C++, and Python.
- Strong problem-solving skills with hands-on experience completing **10+ academic and independent software projects**.

SKILLS

• C++ • Python • PHP • MySQL • Full-Stack Web Development • Database Architecture • UI/UX Design • Draw.io

PROFESSIONAL EXPERIENCE

Independent Full-Stack Developer

Jan 2026 - Present

2022 – Present

- Independently developed and worked on multiple academic and personal software projects..
- Designed database-driven applications using PHP, MySQL, HTML, CSS, and JavaScript.
- Applied programming, database design, OOP, and problem-solving skills across various projects.

EDUCATION

B.Sc. in Computer Science & Engineering

Current (8th Sem)

Varendra University | Bangladesh

Higher Secondary Certificate (HSC)

Completed

Akhaura cambrian college | Bangladesh | GPA: 4.92

Secondary School Certificate (SSC)

Completed

Nandanur High School | Bangladesh | GPA: 4.83

PROJECT EXPERIENCE

Full-Stack AI Job Recruitment System

2026

- Engineered a full-stack recruitment platform integrating AI-driven functionalities for candidate screening and recruitment processes.
- Designed database-driven functionality for managing candidate and recruitment information.

Toll Management Software

2025

- Developed a toll management system using C++, applying Object-Oriented Programming (OOP) principles and efficient data structures.
- Implemented core system functionality for vehicle and toll transaction management.

Interactive Restaurant Interface

2025

- Designed and developed a dynamic, responsive restaurant web application using **HTML, CSS, and JavaScript**.
- Implemented interactive UI components and a user-friendly interface.

Academic & Independent Projects (10+ Additional Projects)

2023 - 2026

- Successfully completed 10+ software projects involving **web development, database design, digital image processing, and algorithmic problem solving**.
- Implemented technical projects involving **cryptographic concepts**, including a custom Diffie-Hellman algorithm implementation.

ACHIEVEMENTS

- Maintained strong academic performance with **4.92/5.00 GPA in HSC** and **4.83/5.00 GPA in SSC**.
- Successfully completed and delivered **10+ academic and independent software projects**.
- Developed multiple projects involving web development, database systems, C++, and AI-related functionalities.
